## Using new technology in Lifestyle Management

Dear <family admin>,

As you know, we're committed to the highest calibre of care and as such we continue to explore means to enhance our care delivery. To that end we've recently been further evaluating the benefits that using technology can bring and as a result we've introduced RemindMecare into our care homes, which we believe will bring benefits to residents and their families.

We would therefore like to invite you to enrol <resident first name> in the RemindMecare system (aka ReMe). This will enable our carers to better know key likes, dislikes, habits, memories and life story, and to record engagement in activities, entertainment and therapy, so that you can better know how <resident first name> is spending time and monitor our assessment of wellbeing.

You will be also able to contribute content, such as family albums, music, entertainment that can be used in our engagement if you so wish and you and your chosen care circle can more easily remotely connect with them.

<http://www.remindmecare.com/connecting-your-family/>

### Instructions:

1. You can learn more about RemindMecare by clicking [here](#).
2. and you can enrol <resident first name> in the registration form found [here](#).

Insert link provided in your ReMe Resident enrolment module (see example at <https://imgur.com/a/2y4plzd>)

Once you have registered feel free to download the free RemindMecare app from [Apples App store](#) or the [Android Play Store](#).

<https://itunes.apple.com/us/app/remindmecare/id1397554089?ls=1&mt=8>

We think you'll find ReMe fun and will enjoy participating in its increasing ability to provide a valuable resource for providing lifestyle benefits.

Please do not hesitate to contact us if you would like to discuss this matter.

Kind Regards,

**Sarah Benson**

Manager, Cedars Court Care Home
